INTRODUCTION

In 1996, Congress enacted the Health Insurance Portability and Accountability Act (“HIPAA”) to improve the efficiency and effectiveness of the health care system. HIPAA authorized the United States Department of Health and Human Services (“HHS”) to adopt national standards designed to ensure the security and privacy of individuals’ health information. As required by HIPAA, HHS issued the Standards for Privacy of Individually Identifiable Health Information (the “Privacy Rule”) and the Security Standards for the Protection of Electronic Protected Health Information (the “Security Rule”). The Privacy Rule established national standards for the use and disclosure of individually identifiable health information-called “protected health information” or “PHI”, as well as standards for individuals’ privacy rights to understand and control how their health information is used. The Security Rule established a national set of security standards for protecting certain health information that is held or transferred in electronic form. HIPAA and the Privacy and Security Rules were updated in 2009 under the Health Information Technology for Economic and Clinical Health Act (“HITECH Act”) and again in 2013 under the Omnibus Rule. HIPAA, the Privacy and Security Rules, HITECH Act and the Omnibus Rule are collectively referred to as the HIPAA Rules.

Protected health information is information, including demographic data that relates to an individual’s past, present or future physical or mental health or condition, the provision of health care to an individual, or the past, present or future payment for the provision of health care to an individual, and identifies the individual.

In fulfilling the various functions and missions of the County of Livingston, State of New York (the “County”), County departments come into possession of, use and disclose PHI. The County is committed to compliance with all applicable laws and regulations including, but not limited to, the HIPAA Rules. Except for when otherwise notes, the terms herein shall have the same meaning as they do in the HIPAA Rules.

POLICIES AND PROCEDURES

I. DESIGNATIONS

A. Hybrid Entity. County activities include both HIPAA covered and non-covered functions. Accordingly, the County shall be designated a “Hybrid Entity” so that it may more effectively and efficiently administer these policies and procedures in compliance with the HIPAA Rules. The County shall have a designated Compliance Officer, HIPAA Privacy Officer and HIPAA Security Officer.

B. Health Care Components. The County Board of Supervisors shall designate by resolution the County departments that shall be its health care components. Such designations may be amended from time to time. The head of each designated health care component, or their designee, shall be responsible for administration of these policies and procedures.

C. Officers.

i. The HIPAA Privacy Officer shall oversee compliance with the Privacy Rule and shall be responsible for coordinating, developing, approving and assisting the County Compliance Committee in overseeing and monitoring the privacy of PHI and implementing policies, standards, and guidelines, including minimum requirements, that provide adequate privacy of PHI for all County health care components, and responding to actual or suspected breaches in confidentiality or integrity of PHI.

ii. The HIPAA Security Officer shall oversee compliance with the Security Rule and shall be responsible for coordinating, developing, approving and assisting the County Compliance Committee in overseeing and monitoring the security of PHI and implementing policies, standards, and guidelines, including minimum requirements, that provide adequate information security for electronic PHI for all County health care components, and responding to actual or suspected breaches in confidentiality or integrity of PHI.

ii. *Requests for access and timely action.*

1. Individual's request for access. An individual shall be permitted to request, in writing, access to inspect or to obtain a copy of their PHI maintained by the County. Such written request shall be submitted to the Privacy Officer who shall be responsible for receiving and processing requests for access by individuals.

2. Timely action.

- b. If space for inspection is not available, a copy of the requested records shall be provided to the individual within ten (10) days.

3. Fees. If an individual requests a copy of their PHI or agrees to a summary or explanation of such information, a reasonable, cost-based fee may be imposed which shall not exceed the cost incurred by the County, provided that the fee includes only the cost of:

- a. Labor for copying the PHI, whether in paper or electronic form;
- b. Supplies for creating the paper or electronic copy (not to exceed seventy-five cents per page);

 - a. The request is for psychotherapy notes or information compiled in reasonable anticipation of, or for use in, a civil, criminal, or administrative action or proceeding.
 - b. The County Jail or a County health care component acting under the direction of the Jail may deny, in whole or in part, an inmate's request to obtain a copy of PHI, if obtaining such copy would jeopardize the health, safety, security, custody, or rehabilitation of the individual or of other inmates, or the safety

- of any officer, employee, or other person at the correctional institution or responsible for the transporting of the inmate.
- c. An individual's access to PHI created or obtained by the County in the course of research that includes treatment may be temporarily suspended for as long as the research is in progress, provided that the individual has agreed to the denial of access when consenting to participate in the research that includes treatment, and the County has informed the individual that the right of access will be reinstated upon completion of the research.
 - d. An individual's access may be denied if the PHI was obtained from someone other than a health care provider under a promise of confidentiality and the access requested would be reasonably likely to reveal the source of the information.
2. Reviewable grounds for denial. A request for access may be denied, with an opportunity to review the denial, in the following circumstances:
 - a. A licensed health care professional has determined, in the exercise of professional judgment, that the access requested is reasonably likely to endanger the life or physical safety of the individual or another person.
 - b. The PHI makes reference to another person (unless such other person is a health care provider) and a licensed health care professional has determined, in the exercise of professional judgment, that the access requested is reasonably likely to cause substantial harm to such other person, or
 - c. The request for access is made by the individual's personal representative and a licensed health care professional has determined, in the exercise of professional judgment, that the provision of access to such personal representative is reasonably likely to cause substantial harm to the individual or another person.
 3. Making other information accessible. Where access is denied to a part of an individual's PHI, to the extent possible, an individual shall be provided access to any other PHI requested.
 4. Denial. The County shall provide written denial to the individual within ten (10) days of the individual's request. The denial must be in plain language and contain:
 - a. The basis for the denial;
 - b. If applicable, a statement of the individual's review rights including a description of how the individual may exercise such review rights; and

- c. A description of how the individual may complain to the County Privacy Officer pursuant to Section XI or to the Secretary of HHS. The description must include the name, or title, and telephone number of the Privacy Officer.
5. Review of a denial of access. If access is denied on permitted grounds, the individual shall have the right to have the denial reviewed by a licensed professional who is designated by the County to act as a reviewing official and who did not participate in the original decision to deny and also by a New York State medical record access review committee.
6. Other responsibility. If the County does not maintain the PHI requested but it knows where the requested information is maintained, it shall inform the individual where to direct the request for access.

C. Request for Amendment of PHI.

i. *Right to amend.* An individual shall have the right to amend their PHI for as long as the information is maintained by the County.

2. Timely action. An individual's request for an amendment shall be acted upon no later than sixty (60) days after receipt of such a request.
 - a. If action cannot be taken within the 60 day timeframe, the County may have an additional thirty (30) days to respond so long as within the 60 day timeframe it provides the individual with a written statement of the reasons for the delay and the date by which the County will complete its action on the request and the County has not previously had an extension on the same request.

iii. *Accepting the Amendment.* If a request for an amendment is accepted, in whole or in part, the following requirements must be satisfied:

1. Making the Amendment. Appropriate amendments shall be made to the PHI or record by, at a minimum, identifying the records in the record set that are affected by the amendment and appending or otherwise providing a link to the location of the amendment.
2. Informing the Individual. Timely inform the individual that the amendment is accepted and obtain the individual's identification of and agreement to notify the relevant person(s) with which the amendment needs to be shared in accordance with the subsection below.
3. Informing Others. Reasonable efforts shall be made to inform and provide the amendment within a reasonable time to:
 - a. Persons identified by the individual as having received PHI about the individual and needing the amendment, and
 - b. Persons, including business associates, that the County knows have the PHI that is the subject of the amendment and that may have relied, or could foreseeably rely, on such information to the detriment of the individual.

iv. *Denying the Amendment.* If a request for an amendment is denied, in whole or in part, the following requirements must be satisfied:

1. Denial. A written denial shall be timely provided to the individual no later than sixty (60) days after receipt of the request. The denial shall use plain language and contain:
 - a. The basis of the denial,
 - b. The individual's right to submit a written statement disagreeing with the denial and the individual may file such statement,

 - d. A description of how the individual may complain to the Privacy Officer or to the Secretary of HHS. The description must include the Privacy Officer's title and telephone number.
2. Statement of Disagreement. An individual shall be permitted to submit a written statement disagreeing with the denial of all or part of a requested amendment and the basis of such disagreement.
3. Rebuttal Statement. The County shall be permitted to prepare a written rebuttal to the individual's statement of disagreement. Whenever such a rebuttal is prepared, a copy shall be provided to the individual who submitted the statement of disagreement.

4. Record Keeping. As appropriate, the record or PHI shall be identified in the designated record set that is the subject of the disputed amendment and append or otherwise link the individual's request for an amendment, the County's denial of the request, the individual's statement of disagreement, if any, and the County's rebuttal, if any, to the designated record set.
5. Future Disclosures.
 - a. If a statement of disagreement has been submitted by the individual, either the individual's request for an amendment, the County's denial of the request, the individual's statement of disagreement, if any, and the County's rebuttal or an accurate summary of any such information shall be included with any subsequent disclosure of PHI to which the disagreement relates.

a. If the agency or official's statement is made orally, the County shall:

- i. Document the statement, including the identity of the agency or official making the statement,

iv. *Providing the accounting to the individual.*

1. A request for an accounting shall be acted upon no later than sixty (60) days after receipt of such request. If the County is unable to provide the accounting within such time frame, it may extend the time to provide the accounting by no more than 30 days, provided that the County provides the individual with a written statement of the reasons for the delay and the date by which the accounting will be provided. Only one such extension shall be permitted.

2. The first accounting provided to an individual in any twelve (12) month period shall be provided without charge. However, the County shall be permitted to impose a reasonable, cost-based fee for each subsequent request for an accounting by the same individual within the 12 month period, provided that the individual is informed of such fee in advance.

v. *Documentation.* Any time a written accounting is provided to an individual such accounting shall be documented and permanently retained.

VIII. BUSINESS ASSOCIATES

A. Business Associate Agreement Requirements. A contract between the County and a business associate must:

i. *Establish the permitted and required uses and disclosures.* The contract may not authorize the business associate to use or further disclose PHI in a manner that would violate the HIPAA Rules except that:

1. The contract may permit the business associate to use and disclose PHI for the proper management and administration of the business associate and
2. The contract may permit the business associate to provide data aggregation services relating to the County's health care operations.

7. Make its internal practices, books, and records relating to the use and disclosure of PHI received from, or created or received by the business

associate on behalf of, the County available to the Secretary for purposes of determining the County's compliance with the HIPAA Rules and

8. At termination of the contract, if feasible, return or destroy all PHI received from, or created or received by the business associate on behalf of, the County that the business associate still maintains in any form and retain no copies of such information or, if such return or destruction is not feasible, extend the protections of the contract to the information and limit further uses and disclosures to those purposes that make the return or destruction of the information infeasible.

iii. *Authorize the County to terminate the contract where business associate has violated a material term of the contract.*

B. Where Business Associate is also a Government Entity.

i. Where the business associate is another government entity, the County and the other government entity may enter into a memorandum of understanding ("MOU").

ii. If a business associate is required by law to perform a function or activity on behalf of the County or to provide a service described in the definition of business associate to the County, the County may disclose PHI to the business associate to the extent necessary to comply with the legal mandate provided that the County attempts in good faith to obtain satisfactory assurances, if applicable, and, if such attempt fails, documents the attempt and the reasons that such assurances cannot be obtained.

iii. The County may omit the termination authorization, if such authorization is inconsistent with the statutory obligations of the County or its business associate.

iv. The County may disclose only a limited data set to a business associate for the business associate to carry out a health care operation function if first approved by the Privacy Officer.

C. Other Requirements for Business Associate Agreements/MOUs.

ii. Where a breach of PHI is suspected or notification of a suspected breach has been received, the County shall:

1. Determine whether there has been an impermissible acquisition, access, use or disclosure of PHI.
2. Determine whether any of the 3 following exceptions apply:
 - a. Unintentional acquisition, access or use: Made in good faith, within the course and scope of employment or other professional relationship, and does not result in further use or disclosure.
 - b. Inadvertent disclosure: This covers disclosures from an otherwise authorized individual to another similarly situated individual at the same facility, if not further used or disclosed without authorization.
 - c. Inability to retain the information: The unauthorized person to whom the PHI was disclosed would not have been able to retain the information.
3. Determine and document if the impermissible use or disclosure compromises the security or privacy of PHI.

iii. Except as provided in (i) above, an acquisition, access, use or disclosure of PHI in a manner not permitted under the HIPAA Rules is presumed to be a breach unless the County or its business associate, as applicable, demonstrates that there is a low probability that the PHI has been compromised based on a risk assessment of at least the following factors:

G. Law Enforcement Delay.

- i. If a law enforcement official states to the County or its business associate that a notification, notice, or posting required under these policies and procedures would impede a criminal investigation or cause damage to national security, the County or its business associate shall:
 1. If the statement is in writing and specifies the time for which a delay is required, delay such notification, notice, or posting for the time period specified by the official; or
 2. If the statement is made orally, document the statement, including the identity of the official making the statement, and delay the notification, notice, or posting temporarily and no longer than thirty (30) days from the date of the oral statement, unless a written statement as described in paragraph (a) of this section is submitted during that time.
